

CS110 HTML/CSS Project - Grading Rubric (5 Points)

Part 1: Semantic HTML Foundation (2 points)

Basic HTML Structure (0.5 pt)

- **Excellent (0.5):** Properly includes DOCTYPE html, html lang attribute, head and body elements with correct syntax
- **Satisfactory (0.25):** Missing one key structural element or minor syntax error
- **Needs Improvement (0):** Multiple missing or incorrect structural elements

Metadata & Head Section (0.5 pt)

- **Excellent (0.5):** Complete head section with title, meta charset, and viewport meta tag properly configured
- **Satisfactory (0.25):** Missing some meta elements or title is generic/missing
- **Needs Improvement (0):** Incomplete or incorrect head section with multiple missing elements

Required Sections (0.5 pt)

- **Excellent (0.5):** All required sections present and complete: header with name and contact info, personal information section, education section, skills section (with categories), and footer
- **Satisfactory (0.25):** Missing 1-2 required sections or sections lack substantial content
- **Needs Improvement (0):** Missing 3+ required sections or minimal content throughout

Semantic HTML Elements (0.25 pt)

- **Excellent (0.25):** Consistently uses appropriate semantic elements (header, section, footer, h1-h6, p) with proper nesting and hierarchy
- **Satisfactory (0.125):** Some semantic elements used correctly but inconsistent or improper nesting in places
- **Needs Improvement (0):** Minimal use of semantic elements or heavy reliance on generic divs and spans

Heading Hierarchy & Structure (0.25 pt)

- **Excellent (0.25):** Logical heading hierarchy (h1 through h6) with proper progression and meaningful content in all sections
- **Satisfactory (0.125):** Minor issues with heading levels or content organization
- **Needs Improvement (0):** Poor heading structure with skipped levels or minimal/disorganized content

Part 2: Enhanced HTML Elements (1 point)

Image Implementation (0.4 pt)

- **Excellent (0.4):** Profile image properly implemented with img tag, descriptive alt text for accessibility, and well-positioned within the page structure
- **Satisfactory (0.2):** Image implemented but missing alt text, poorly positioned, or incorrect file path
- **Needs Improvement (0):** Missing image implementation or multiple technical issues

Lists Implementation (0.3 pt)

- **Excellent (0.3):** Skills properly converted to unordered lists (ul and li) with correct nesting, separate lists for technical and soft skills, and logical organization
- **Satisfactory (0.15):** Lists implemented but with minor structural issues, inconsistent organization, or improper nesting
- **Needs Improvement (0):** Lists missing, implemented incorrectly, or not used for skills section

Hyperlinks Implementation (0.3 pt)

- **Excellent (0.3):** Contact information properly converted to functional hyperlinks (mailto: for email, tel: for phone) with appropriate attributes (href, title) and additional social media or portfolio links included
- **Satisfactory (0.15):** Some hyperlinks implemented but missing attributes, inconsistently applied, or non-functional links
- **Needs Improvement (0):** Hyperlinks missing or implemented incorrectly

Part 3: External CSS Styling (2 points)

File Organization & Linking (0.25 pt)

- **Excellent (0.25):** External CSS file (styles.css) properly created and correctly linked to HTML document using link tag in head section with proper attributes
- **Satisfactory (0.125):** CSS file created but linked incorrectly, wrong file path, or minor linking issues
- **Needs Improvement (0):** Missing external CSS file or serious linking issues preventing styles from loading

Background Styling (0.5 pt)

- **Excellent (0.5):** Background image properly implemented using body:before pseudo-element with appropriate transparency that maintains content readability and visual appeal
- **Satisfactory (0.25):** Background implemented but with readability issues, incorrect pseudo-element usage, or transparency problems
- **Needs Improvement (0):** Missing background styling or implemented incorrectly making content unreadable

Element Styling & Color Scheme (0.5 pt)

- **Excellent (0.5):** Cohesive color scheme throughout page with consistent styling of sections, headings, paragraphs, and lists; appropriate padding, margins, and spacing creating visual harmony
- **Satisfactory (0.25):** Styling applied but lacks cohesiveness, consistency issues, or spacing problems affecting layout
- **Needs Improvement (0):** Minimal styling application, no color scheme, or incorrect CSS causing layout issues

CSS Code Quality & Organization (0.5 pt)

- **Excellent (0.5):** Clean, well-organized CSS with logical grouping of selectors, proper indentation, consistent naming conventions, and efficient use of CSS properties
- **Satisfactory (0.25):** CSS functional but lacks organization, inconsistent formatting, or redundant rules
- **Needs Improvement (0):** Poorly organized CSS that is difficult to read or contains significant inefficiencies

Code Organization & Clean Code (0.25 pt)

- **Excellent (0.25):** Clean, well-indented code with logical structure; clear separation of content (HTML) from presentation (CSS); follows all clean code principles
- **Satisfactory (0.125):** Code organization needs improvement with some inconsistencies in indentation or structure
- **Needs Improvement (0):** Poorly organized or difficult to read code; mixing of presentation and content

Total Score: ____ / 5

Score Breakdown:

- Part 1: Semantic HTML Foundation: ____ / 2.0
- Part 2: Enhanced HTML Elements: ____ / 1.0

- Part 3: External CSS Styling: ____ / 2.0

Grading Scale Guide:

- **4.5 - 5.0:** Excellent - Exceeds expectations
- **4.0 - 4.4:** Very Good - Meets all requirements with minor issues
- **3.5 - 3.9:** Good - Meets most requirements
- **3.0 - 3.4:** Satisfactory - Meets basic requirements with some gaps
- **Below 3.0:** Needs Improvement - Significant gaps in requirements
